## HEATING & COOLING

By Lelia Cheatham

DC Heating and Cooling was founded in 1983 by David and Lelia Cheatham. For 35 years the company has provided quality service for customers across the state of Ohio. DC Heating and Cooling credits its success to providing excellent service, value, and workmanship.

Under David's leadership DC Heating and Cooling has thrived. The company makes recommendations and installs effective and dependable heating systems. Committed to providing customers with efficient, reliable, and easy to operate air conditioners for residences as well as commercial businesses, they also specialize in zoning and duct design.

DC Heating and Cooling shows their commitment to the community by sponsoring the "Annual Pig Roast". Every year around the 4th of July they open their home to their clients, customers and the community. What started as a family gathering with a DJ, volley ball, and a pig roasting in the driveway has grown into an event with a live band, fireworks, and bouncy houses. In the fall they host a safe alternative to Halloween trick or treating by sponsoring a "Trunk or Treat" party. Costumes are on display, bonfires, and hayrides round out the festivities. Family and friends line up cars and give out candy from their trunks as the children parade by. This is another event that grows every year.

DC Heating and Cooling owes its growth and success to a number of organizations. Their key clients include: Warmus Builders, the Community Action Council, the Cleveland Housing Network, and the NRP group. They have also worked with G. Stephens, Rhoden Memorial Home, and Pirhl Developers. DC Heating and Cooling proudly serves a 50 mile radius of Akron, to include Canton, Cleveland, and Bedford Heights, and many other areas across the state of Ohio.

DC Heating and Cooling provides a 24 hour emergency service. The company understands that the installation

of a new furnace or air conditioner is a significant investment in a home or business and DC Heating and Cooling is committed to delivering the utmost in customer service. That's why special care is taken to keep the home or office clean while they are working.

David Cheatham is committed to his family, his community, and his customers; a commitment he shows by providing them with excellent value and workmanship.

Contact DC Heating and Cooling today at 330-762-1992 or visit their website at [www.dcheatingcooling.com](http://www.dcheatingcooling.com). You'll be glad you did. ■
